# Natural parquet flooring – with added know-how!

Real wood is one of nature's most beautiful gifts. Nothing creates a natural atmosphere in your home so quickly and easily, while standing the test of time in terms of quality and durability. With our moderna parquet flooring, we have gone one important step further! As well as the perfect aesthetic and incomparable natural

quality, our parquet flooring collection offers an extra portion of technical know-how. The high-quality product structure with a sturdy, highly compressed HDF middle layer sets moderna parquet flooring apart: extremely indent-resistant, extremely quiet and extremely sustainable!

## INDENT-RESISTANT

The highly compressed wood fibre core stabilises the surface and makes it largely indent resistant. The press-in behaviour of the flooring under mechanical pressure is many times better than parquet flooring with a conventional spruce core:

Conventional parquet flooring with spruce core (3.6-mm oak covering layer)

moderna parquet flooring with HDF middle layer (2.5-mm oak covering layer)

## SUSTAINABILITY

Thanks to the perfect combination of the 2.5-mm real wood wear layer and the special HDF middle layer, only a tenth of the valuable raw material is used in the manufacture of moderna parquet flooring compared with a solid wood floor.

### Hard wax oil finish

Natural oils and waxes deeply penetrate the wood and form a protective, breathable coating. This type of finish accentuates the grain and structure of the wood, has a moisture-regulating effect and ensures a healthy room climate.

### Sealing lacquer

7-fold sealing with formaldehyde-free, viscoplastic, UV-hardened acrylic lacquer. This lacquer is ecologically non-harmful, and extremely durable and easy to care for, thanks to its special composition.

### Fine wood wear layer

Made of 2.5-mm fine wood

### Backing

Made of Nordic spruce veneer for optimal strength

### Core layer

Special glued HDF middle layer for easy laying, high dimensional stability and increased indent resistance.

## QUIET

Thanks to the HDF middle layer, moderna parquet flooring has an approx. 50% higher net weight than conventional parquet flooring. Greater mass means less vibration, resulting in improved room acoustics!

## EASY TO LAY

moderna parquet flooring is quick, safe and easy to lay. The innovative fold-down system ensures easy installation, a precision fit and permanently tight joints.

## EASY MAINTENANCE

Vacuuming, sweeping or wiping with a damp cloth and a suitable cleaning product is all that is needed for regular maintenance.

## Elegant country house planks

The natural yet elegant aesthetic and impressive 2.20-metre length of moderna deluxe country house planks is ideal for use in larger rooms. The elegant longitudinal joint makes the planks appear almost infinite. The planks come in four high-quality oak variants with a natural hard wax oil finish or a subtle matt lacquer.

Oak | rustic | brushed | hard wax oil finish

## Accessories

SKIRTING BOARDS

With our products, you can rest assured that everything fits together. As accessories for moderna parquet flooring, we recommend:

### Veneer skirting board FSL 60

For the perfect connection to the wall with real wood veneer

UNDERLAY MATERIAL

### moderna Perfectfloor Eco

The perfect underlay for your moderna parquet flooring!

- + Outstanding walking and footstep noise reduction
- + A very heavy and high-quality material ensures durability and extreme resistance
- + The underlay's elastic recovery properties guarantee permanent elasticity and a high load-bearing capacity
- + Manufacture from natural raw materials
- + 100% recyclable and emissions-tested
