moderna
wall & ceiling

Creativity, design and function:
Panels reinterpreted!

Dark wood panelling? Dusty image? Not anymore! Today, panels are primarily a design element for contemporary walls and ceilings. Modern panels offer impressive lightness and variety – and a number of practical properties. The moderna range offers a wide variety of designs, surfaces, versions and formats for every interior decoration style – so you can add your personal touch to your favourite spot!

SUSTAINABLE AND COMPATIBLE WITH HEALTHY LIVING

With wall and ceiling panels from moderna, you are always on the safe side when it comes to healthy living! As a traditional manufacturer, all our products are exclusively made in Germany and use wood sourced from PEFC-certified forestry.
The best bit: all panels from moderna are awarded the Blue Angel certification.
That way, you can be sure of installing an ecologically sound, sustainable product in your home!

SUITABLE FOR HUMID ROOMS

Our panels can be installed in humid rooms, such as bathrooms, without a problem (except in areas directly exposed to splashing water).

EASY MAINTENANCE

Panels are far superior to other wall and ceiling coverings like wallpaper, as they are extremely quick easy to clean – simply wipe them with a damp cloth!

SUITABLE FOR RECESSED SPOTLIGHTS

moderna panels are heat resistant up to 100°C – making them perfect for use with recessed lights!

COLOUR-FAST

Thanks to their high-quality surface, moderna panels do not fade when exposed to sunlight.
