Design flooring for healthy living

Two structures, one concept – “2 in 1”

A floor that can withstand (almost) anything? For playing and romping around, for feeling comfortable, for the kitchen, for spacious living areas, yet still healthy, environmentally conscious and stylish? Sounds like a design dream come true! The moderna eco-design flooring makes it true! moderna eco-design is available in two different structures: as moderna eco-design with an additional cork layer or as moderna eco-design smart in the particularly thin and renovation-friendly variant – in addition to the plank format, this is also available as a modern large tile. What makes it special: The decors of both collections in plank format are identical. This allows you to lay the same decor throughout different product structures (e.g. for bedrooms and corridors), giving you a uniform look. Clever, isn't it? We certainly think so.

The special edge impregnation and AquaSafe board make the design flooring water-resistant and offer up to four hours of protection against standing water. The flooring can be installed in humid rooms, such as bathrooms. This does not include outdoor areas and wet rooms, e.g. saunas, shower cubicles and rooms with a floor drain.

The eco-design flooring is also absolutely odourless and free of PVC and phthalates. This is good for the environment, but it's particularly good for the people who live on and with the flooring. That is why moderna eco-design also carries the Blue Angel logo.

moderna eco-design

moderna eco-design

Design with extra comfort

Without a doubt, this floor has that certain, extra-special something: an extra-pleasant SoftSense® surface, extra-beautiful and authentic oak decors and, last but not least, the extra layer of cork sound-absorbing cushion. This ensures that moderna eco-design is not only beautiful, but also quiet and comfortable – the perfect flooring for living rooms, bedrooms and especially children's rooms.

moderna eco-design smart

Truly eco. Truly smart!

The perfect flooring for renovations: With an installation height of only 5 mm, eco-design smart is the ideal solution for redesigning rooms. It fits easily under doors and frames and thanks to Multiclic, installation is child's play. With its six oak decors and three stone decors, it blends perfectly with many modern and timeless living styles – the choice is yours!

moderna insulating underlay

moderna Perfectfloor Eco –

The durable and sustainable top product

- + Very good walking and footstep noise reduction
- + Very heavy, high-quality material ensures durability and extreme resistance
- + The underlay's elastic recovery properties guarantee permanent elasticity and a high load-bearing capacity
- + Manufactured from up to 90% natural raw materials
- + 100% recyclable and emissions-tested

Format: **8.5 m x 1 m** | Thickness: **1.8 mm** | Contents: **8.5 m²**

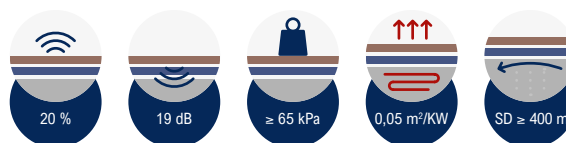

moderna Premiumfloor –

The all-rounder for the most stringent demands

- + Very good walking and footstep noise reduction
- + High-quality integrated moisture barrier
- + Very good levelling of minor unevenness
- + 100% recyclable and emissions-tested

Format: **12.5 m x 1 m** | Thickness: **2 mm** | Contents: **12.5 m²**

moderna Isofloor –

The ecological all-rounder

- + Effective walking and footstep noise reduction
- + Very easy to install and pressure-mark resistant wood fibre board
- + Material thickness provides good thermal insulation
- + Very good levelling of unevenness
- + 100% recyclable and emissions-tested

Format: **79 cm x 59 cm** | Thickness: **4 mm** | Contents: **10.25 m²**

Recommended accessories

moderna protect

Robust and tear-resistant plastic moisture protection film

Format: **5 m x 4 m**

moderna Alutape

Aluminium-coated PET tape for the vapour-tight application of plastic film or an insulating underlay

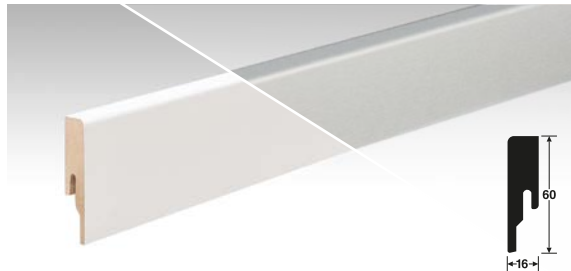

Format: **50 m x 50 mm**

Accessories: For a perfect fit!

From moderna, you not only get a floor covering, but a complete, coordinated system of accessories. That way, you can be sure of an all-round perfect fit!

Skirting boards

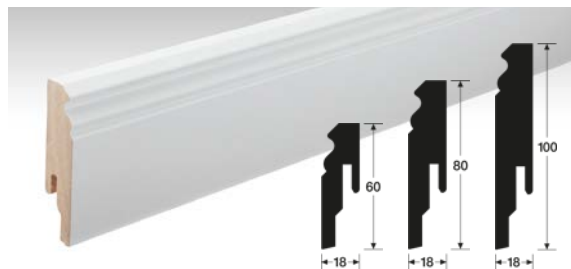

High-quality skirting boards create the perfect connection to the wall and a harmonious overall look in the room.
