moderna laminate

Timeless. Stylish. Unmistakable.

Give your ideas free rein and choose your personal favourites from the extensive range of moderna laminates. Whether it's stunning, extra wide formats, country house planks that appear virtually endless, or practical short planks – you are bound to find what you are looking for. What all moderna laminate flooring has in common: they not only feature modern, authentic decor, but deliver all the technical benefits of high-quality hard flooring.

EASY TO INSTALL

Thanks to the patented click system, moderna laminate flooring is quick, easy and safe to install by yourself. The flooring is designed for floating installation, so there is no need to glue it to the subfloor. Despite this, it is guaranteed to withstand every kind of stressor for many years to come!

MADE IN GERMANY

moderna laminate is exclusive made in Germany from high-quality materials. This guarantees consistent high quality while strengthening our local location.

ECOLOGICAL AND COMPATIBLE WITH HEALTHY LIVING

Hardly any floor covering is as ecological and compatible with healthy living as laminate. This floor covering is made of up to 95% natural materials – especially wood! All moderna laminate flooring therefore bears the “Blue Angel” environmental seal. Another plus for hygiene and health: the surfaces are also naturally antibacterial!

WATER-RESISTANT FOR 4H*

The special edge impregnation and water-tight click system make the design flooring water-resistant and offer up to four hours of protection against standing water. The laminate flooring can be installed in humid rooms, such as bathrooms. This does not include outdoor areas and wet rooms, e.g. saunas, shower cubicles and rooms with a floor drain.

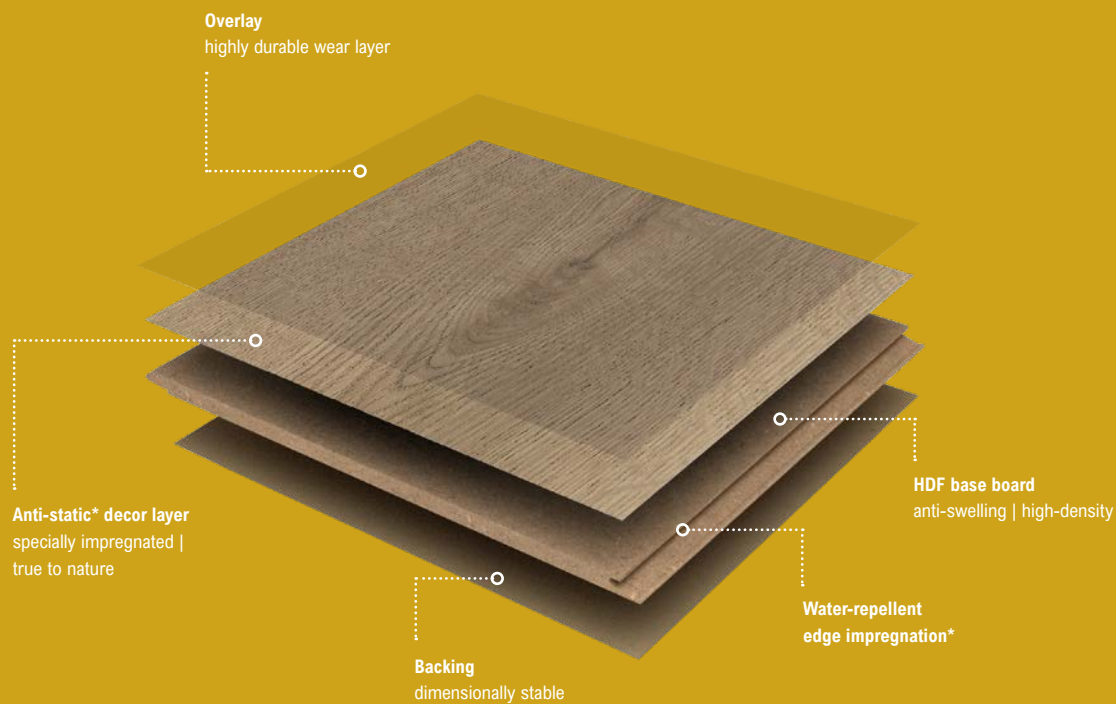

ANTISTATIC*

A special surface treatment prevents the floor from becoming statically charged!

EASY TO MAINTAIN AND DURABLE

Our laminate flooring is extremely easy to care for – in most cases, regular vacuum cleaning is enough; if necessary, it can also be wiped with a damp cloth.
